FLOOR CARE

HOW TO PREPARE FOR OUR GROUT COLOR SEALING

We're here to make your grout look like new again! Over time, grout can become stained, dull, and difficult to clean, making your floors look worn and aged. That's where we come in!

OUR PROCESS

DAY 1: CLEANING & PREPARATION

- **Furniture:**
 - Larger items will remain in place until after sealing on Day 2.
 - We do not move washers or dryers. However, we clean up to and under the edges for a finished look. If you ever replace or move these appliances, we'll come back to complete those areas free of charge. The same applies to other items like entertainment centers or china cabinets (if requested).
- **Door Access:**
 - We'll need to keep a door slightly open for hoses. Please be mindful of this if you have pets.
- **Sink Access:**
 - We'll need access to a sink for rinsing rags. Let us know if you have a specific sink you'd prefer we use.

DAY 2: SEALING & FINISHING TOUCHES

- **Tub Access:**
 - We'll need to use a tub to fill our mop bucket with warm water. You might hear us changing water and disposing of dirty water in the toilet.
- **Sealant Application:**
 - After sealing, the sealant will dry within 30 minutes. We'll mop the floor to remove any "haze," and you'll be able to walk on the floor shortly after.

WHAT WE NEED FROM YOU

- **Move Small & Breakable Items:**
 - Please clear all small and fragile items before our arrival.
 - We will handle moving larger items as needed.
- **Prepare Closet Floors:**
 - All closet floors should be cleared before Day 1. Closet areas are included in our service at no extra cost.

POST-SEALING CURING PERIOD

Your grout will fully cure (harden) over 7 days. At the end of the job, we'll provide detailed after-care instructions to guide you through this period. Additional details are also available on the After-Care page of our website.

"What a great company! My tile floors have never looked better. Also the color sealing of the grout is beautiful. Sloan chose the perfect color to use for the grout." Elaine Ahrens

- Family owned and operated since 2009.
- Serving Georgetown, TX and surrounding area.
- Affordable price for quality work.
- Our code of ethics is hard work and honesty.
- We treat you like we want to be treated.
